

## **Summary of Changes to the Pattern Instructions uploaded on July 17, 2018**

Existing Instruction 14.07B Unanimity Required: Determining Amount of Controlled Substance (§ 846) has changes to every paragraph of text and accompanying verdict forms 14.07B-1 and 14.07B-2.

The amendment changes the amount of drugs attributable to the defendant from the amount of drugs “involved in the conspiracy as a whole” to the amount that resulted from the defendant’s “own conduct and the conduct of other co-conspirators that was reasonably foreseeable to him.”

The rationale for this amendment is provided in the commentary to the instruction.
